

Forward-looking Statements

This presentation and the statements made on behalf of NetApp during this presentation may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act regarding our strategy, products and services, shareholder returns and our future results, performance or achievements, financial and otherwise. Such statements or projections reflect management's current expectations, estimates and assumptions based on the information currently available to us and are not guarantees of future performance. Actual results may differ materially from our statements or projections for a variety of reasons, including, without limitation, general global political, macroeconomic and market conditions, such as the effect of the invasion of Ukraine by Russia and the effect of the resulting sanctions, if any, on our business, the continuing impact of the COVID-19 pandemic, supply chain disruptions, changes in U.S. government spending, and revenue seasonality, as well as matters specific to our business, such as the impact of the COVID-19 pandemic on our operations, financial performance and results of operations, our ability to expand our total available market and grow our portfolio of products, customer demand for and acceptance of our products and services, our ability to successfully execute new business models, our ability to successfully execute on our data fabric strategy to generate profitable growth and stockholder return and our ability to manage our gross profit margins. These and other equally important factors that may affect our future results are described in reports and documents we file from time to time with the SEC, including the factors described under the section titled "Risk Factors" in our most recent filings on Form 10-K and Form 10-Q available at www.sec.gov. The forward-looking statements made in these presentations are being made as of the time and date of the live presentation. If these presentations are reviewed after the time and date of the live presentation, even if subsequently made available by us, on our website or otherwise, these presentations may not contain current or accurate information. Except as required by law, we undertake no obligation to update or revise any forward-looking statement based on new information, future events or otherwise.

This presentation also includes non-GAAP financial measures. Reconciliations of these measures to the comparable GAAP measures are available in the appendix to this presentation.

NetApp's Investor Relations website at <https://investors.netapp.com/investor-relations> contains a significant amount of information about NetApp, including financial and other information for investors. NetApp encourages investors to visit that website from time to time as information is updated and new information is posted. The content of NetApp's website is not incorporated by reference into this presentation, and any references to NetApp's website are intended to be inactive textual references only.

2022 Investor day

Kris Newton
Vice President, Investor Relations
March 22, 2022
